

# Awesome LIVE Animal cams from all over the world!

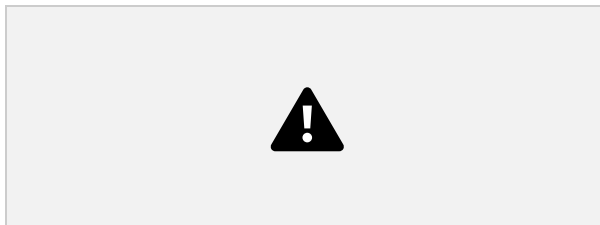

June 11, 2018 by [Erin \(Edit\)](#)

A couple things to keep in mind before you start these awesome, at home, Adventures!

First, most of these streams run using Adobe Flash, this means they may not stream easily on mobile devices!

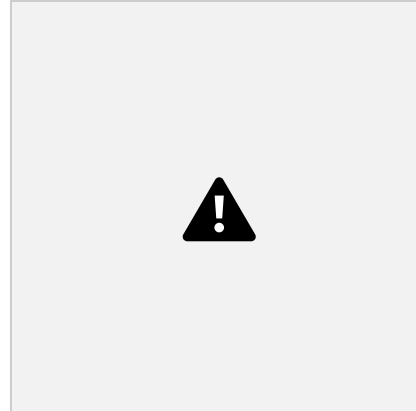

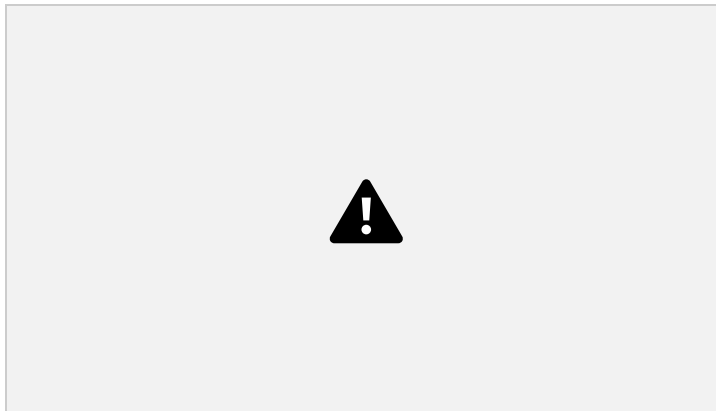

Second, be aware of time differences! I used this as an opportunity to teach my son about time zones! We found each country on the world map, saw how far away it was, and then counted time zones!

Finally, animals can be unpredictable so if nothing is really happening your first go round at viewing the cameras, be sure to check back in later! Here we gooooo....
